

LINCOLN  
SIXTH GRADE  
YEARBOOK

\* \* \*

1996-1997

*"Let us agree that we  
shall never forget one another.  
And whatever happens ...  
remember how good it felt  
when we were all here  
together, united by a good and  
decent feeling, which made us  
better people, probably, than  
we would otherwise  
have been."*

Alyosha's words at the end of *The Brothers Karamazov*

GOOD LUCK TO THE 1997 LINCOLN  
SIXTH GRADE CLASS!

Leon Neyfakh  
Emma Rubin  
Aaron Teitelbaum

### **OPTIMIST CLUB AWARD**

Stephanie Slovak

## MY LIFE LESSON AT LINCOLN

As students grow up going to Lincoln, they learn a lot of lessons. I too have learned many lessons. The most important one that will serve me well in life is to never give up.

Sometimes when you are having a hard time, you just stop trying with your school work, then you might end up stop trying with other things also. If you make it a habit, then it will get worse and worse as you're a kid, then later as an adult. I was having a hard time in TIMS so I stopped trying. When I got my first report card, I didn't like the grade I got. So, I decided to try to work harder as much as I could during the next and final grading period. After doing the best I could, I brought my C- up to an A+ !

Trying hard basically got me through Lincoln. If I don't continue to try, I will have a very hard time at Emerson. Trying hard is a life lesson because if you don't give it your all in anything you do, you have a very hard time in life. Therefore, always remember to try your hardest and do your best.

Erin Byrne

## My Favorite Experience At Lincoln School

By Justin Perez 6R

**I would say my all time favorite experience in Lincoln School was White Pines.**

**White Pines was really awesome. From horseback-riding to Project Wild, the staff of both White Pines and Lincolns' Sixth grade went all out to make this experience memorable.**

**Some of the activities we participated in were Project Wild, Cemetery, and horseback-riding.**

**Now to the food. The best!!! And if anyone who's reading this disagrees should be locked up in a room with padded walls. It was delicious!! Except the clean-up, but that's a whole other story.....**

**The boys got the better cabin then the girls. We had a lot of fun the night the adults told us the ghost stories in the dark. All the girls got was the "Golden Arm". Hah! The only bad part about our cabin was that we were far away from the dining hall, while the girls got the bunk right above it!!**

**The campfire was pretty cool, and my favorite joke was the one about the candy store, and all those kids had to be either doors, lights, or anything else. Dan Schroeder got to sit on top of Mr. Harris. That was a riot!**

**I don't think anyone will forget when Folin sang "May Peace Be With You". W.P. was the best!!!**

### **The African American History Play**

I think we have all had a great experience in this play. We learned a lot about the ancestors of African Americans and theater production. We will not forget the event for a long time to come. I think we will all remember when Mrs. Smitherman started to take people out of class to have try-outs for the choir. Then when Mrs. Smitherman had the choir come on Mondays and Fridays for lunch. I think we all enjoyed hearing them after the lunch period singing-especially Siahmaba. Once the rehearsals started for the choir people could walk down the sixth grade hallway and hear someone humming or singing Siahmaba. When it got closer to the play there was Mrs. Smitherman taking out people for dance try-outs. Then there was when we got closer to the play when we sometimes had an hour or so left for the play rehearsals. By the end of the performances on that Thursday I think almost everyone memorized different lines, dances, and songs of the play. Now I think everybody's tired of the songs-the temptations and Charleston movements especially. Although I think the play was a great hit.

BY:  
Sarah Stephens

## As We Look Back ....

As we look back at our years at Lincoln we have so many memories, Things about each year that were special. We'd like to share some of these with you, they'll probably remind you of some of your own memories.

In Kindergarten, we were "munchkins." We sang songs, drew pictures, constructed sentences, and reviewed our A, B, C's. Our new school seemed big and intimidating.

In first grade, we were so proud that we got to stay the whole day, like big kids. Now we learned to read. We got some homework (like the big kids) We even got spelling tests of words that seem so simple now.

In second grade, things were so different- even a new way of writing, cursive. We started learning more math (remember Mr. O?) We even took our first C.A.T. tests. Do you remember when we went to the zoo and it started to pour?

In third grade we moved on up to the second floor. Town hall meetings were a third grade only event. We had some cool field trips to places like O'hare Airport and Blackberry Farm. This year we started getting more and more homework. It was also the first year for that terrible mill.

In fourth grade we were finally considered intermediate. Remember in the beginning of the school year when the open space air conditioning broke? We were dying without any windows. We had to bring water bottles. We also got to go on those extra field trips to the Shed Aquarium and the Field Museum. And, of course, there was R.A.H. (reading at home) to look forward to each month. Who could forget the prairie unit? We made covered wagons and log cabins, not to mention a movie! And there was the field trip to the Fermi Lab Prairie.

In Fifth grade we got to switch classes for the first time. We got to go to the gym at lunch, right up there with the almighty sixth graders. We also studied the dreaded body systems, we won't even mention Robert Crown (oh well we did, you'll live.) We had some good field trips too, like the multi-cultural trip to China town, that museum, and the Greek Restaurant, the Pegasus. We also had book buddies with the first graders. And, ~~the~~ year we had been waiting for -6th grade- we would rule on an exulted thrown over all of those

other inferior grades. We were on the third floor (It gets really tiring walking up and down, up and down) We will always remember our teachers. Mr. Harris and his class were the envy of all as far as food goes. Mrs. Rothstein plus math equals fun. Mrs. Smithermans class agrees that you can't out slick the slicker (It's an inside joke) Mrs. Fronk was very heartwarming with the hot cocoa. Some of us will remember the traveling horror show and the Hitler trial. No one will ever forget the African American History Play, (encore, encore) Again we had book buddies with the kindergartners. We think that our sixth grade year has been the best yet-it has definitely been action pact.

Now, like in kindergarten, we move on to a new school. Even though no one will admit it, it will be just as big and just as scary as Lincoln was to us, at first. But we will move on, we'll always remember Lincoln, but now we leave it to create some more future memories.

## Lincoln School is the Best School in the District

Why is Lincoln School the best school in the district? Well, I'll tell you why. Lincoln School has great teachers, the school is technologically advanced, and the playground is excellent.

First, Lincoln has great teachers. They give individual help and listen to your questions – they really take an interest in you as a person as well as a student. Lincoln's teachers are knowledgeable and creative. They also try to make school fun by assigning projects other than the usual written reports, like group projects and hands-on activities.

Along with having great teachers, Lincoln is technologically advanced. It has over 25 Macintoshes in the library, and every classroom has a Power Mac. The school is hooked up to the Internet. Lincoln has its own Web site, and a lot of lesson plans incorporate computers or the Internet in some way. For instance, my class just finished a unit on weather and we were able to get forecasts and weather data off the Internet for cities around the world. We also visited NASA's web site to get the latest information about the next space shuttle launch.

On the topic of fun, Lincoln's playground is the best of any school in Oak Park. The forts themselves are new. They were installed in the summer of 1995. They have activities that appeal to all ages, like hanging bridges, swings, monkey bars, and slides. However, even though any fort has most of these things, there's one thing that makes Lincoln's forts unique – they're huge! Along with the forts, there is a field the size of a football field, a baseball diamond, a black top surrounding the school with 50 yard dash lanes, and four basketball hoops. As you can see, the Lincoln playground has something for everyone.

To sum it all up, there are some pretty good reasons why Lincoln School is the best school in the district. It has great teachers, it's technologically advanced, and the playground is excellent. On all levels, Lincoln gives its students a great educational experience.

# Survey Results!

*Most athletic girl:* **Raven Gengler**

*Most athletic boy:* **Andrew Corvo, Chris Newell, Jon Woods**

# **You're Special**

DEAR SIXTH GRADERS,

IT'S BEEN A GREAT YEAR - WE'VE  
MADE SOME GREAT MUSIC: IN THE HOLIDAY  
SING, THE CHORAL FESTIVAL AND IN MUSIC  
CLASS. THANKS FOR ALL YOUR GREAT WORK  
AND GOOD LUCK IN JUNIOR HIGH.

PAUL JACOBSEN

***You have been a wonderful class.  
Treasure the happy times and  
memories we've shared.***

***Good Luck,  
Marilyn Rothstein***

I can't believe you are leaving Lincoln! I  
hope you have had as much fun in P.E. as  
I had teaching you. The best of luck to  
you in Junior High and beyond!

Mrs. Madura

Be a child as long as you can. You  
have the rest of your life to be an  
adult!

Kevin Harris

It's been a pleasure getting to know all  
of you and work with some of you.  
Remember to make safe choices and be  
happy.

Diane Godek

As Dr. Suess once said, "Oh, the places  
you'll go!!" I am so proud of each and  
every one of you! I wish you success in  
whatever you choose to do!

Kim Fronk

*Return to Lincoln often. We want to stay in  
touch with you as you make career choices  
and develop into young adults. Remember  
you will always be "Up at Lincoln".*

*Mrs. Dudzick*

Enjoy your days in Junior High. We'll miss you!

Sheila Carter

**MY WISH FOR ALL OF YOU IS THAT  
YOU REACH ANY GOAL YOU SET  
FOR YOURSELF. ALWAYS REMEMBER  
THAT NO ONE RISES TO LOW  
EXPECTATIONS AND ABOVE ALL -  
BELIEVE IN YOURSELF.**

**BETTY SMITHERMAN**

I really will miss you! Lincoln is losing so many  
creative artists. Our halls will miss all of your  
wonderful works of art. May you continue to  
appreciate the art that is around you. The best to  
you - Come back and visit.

With fond memories.

Mrs. Marino
